INDEX TO VOLUME 97

Age, inheritance, and uplift history of the Old Woman-Paiute Batholith, California, and implications for K-feldspar age spectra [D. A. Foster, T. M. Harrison, and C. F. Miller], 232

The Age of Lamarck, by P. Corsi. *Review* by D. Jablonski, 520

Age of xenolith-bearing olivine metagabbro, eastern Adirondack Mountains, New York [J. M. McLelland and J. Chiarenzelli], 373

Age, stratigraphic position, and significance of the Lemont drift, northwestern Illinois [W. H. Johnson and A. K. Hansel], 301

Analysis of hillslope erosion rates using dated colluvial deposits [S. L. Reneau, W. E. Dietrich, M. Rubin, D. J. Donahue, and A. J. T. Jull], 45

Anderson, A. T. *See* Mysen, B. O.

Baker, M. B. *See* Mattioli, G. S.

Baldwin, S., and T. M. Harrison. *Geochronology of blueschists from west-central Baja California and the timing of uplift in subduction complexes*, 149

Barbosa, J. S. F. *See* Xavier, R. P.

Barker, F. *See* Beard, J. S.

Barman, T. R. *See* Sarkar, G.

Basalt convection and plagioclase retention: a model for the generation of high-alumina arc basalt [J. G. Brophy], 319

Basic elements of maar-crater deposits in the Hopi Buttes volcanic field, northeastern Arizona, USA [J. D. L. White], 117

Bateman, R. *Cannibal Creek granite: post-tectonic "ballooning" pluton or pre-tectonic piercement diapir?: a discussion*, 766

Batiza, R., P. J. Fox, P. R. Vogt, S. C. Cande, N. R. Grindlay, W. G. Melson, and T. O'Hearn. *Morphology, abundance, and chemistry of near-ridge seamounts in the vicinity of the Mid-Atlantic Ridge ~26°S*

Beach cusp destruction, formation, and evolution during and subsequent to an extratropical storm, Duck, North Carolina [J. R. Miller, S. M. Orbock Miller, C. A. Torzynski, and R. C. Kochel], 749

Beard, J. S., and F. Barker. *Petrology and tectonic significance of gabbros, tonalites, shoshonites, and anorthosites in a late Paleozoic arc-root complex in the Wrangellia terrane, southern Alaska*, 667

Berhard-Griffiths, J. *See* Peucat, J. J.

Bischoff, J. L. and R. J. Rosenbauer. *Salinity variations in submarine hydrothermal systems by layered double-diffusive convection*, 613

Blum, T. *See* Muto, T.

Bowring, S. A. *See* Housh, T.

Branshaw, J. Y. *Early Cretaceous vein-related garnet granulite in Fiordland, southwest New Zealand: a case for infiltration of mantle-derived CO_2-rich fluids*, 697

Bristol, D. A., and S. Mosher. *Grenville-age polyphase deformation of mid-Proterozoic basement, NW Van Horn mountains, Trans-Pecos, Texas*, 25

Brophy, J. G. *Basalt convection and plagioclase retention: a model for the generation of high-alumina arc basalt*, 319

Campbell, C. S. *Self-lubrication for long runout landslides*, 653

Cande, S. C. *See* Batiza, R.

Cannibal Creek granite: post-tectonic "ballooning" pluton or pre-tectonic piercement diapir?: a discussion [R. Bateman], 766

Cannibal Creek granite: post-tectonic "ballooning" pluton or pre-tectonic piercement diapir?: a reply [S. R. Peterson], 769

Chacko, T. *See* Frost, B. R.

The Changing Atmosphere, edited by F. S. Rowland and I. S. A. Isaksen. *Review* by P. D. Guthrie, 775

Chemical Cycles in the Evolution of the Earth, edited by C. B. Gregor et al. *Review* by E. Ito, 520

Chemostratigraphy across the Cretaceous-Tertiary boundary and a critical assessment of the iridium anomaly [M. Tredoux, M. J. de Wit, R. J. Hart, N. M. Lindsay, B. T. Verhagen, and J. P. F. Sellschop], 585

Chiarenzelli, J. *See* McLelland, J. M.

Choudhuri, A. *See* Xavier, R. P.

Chown, E. H. *See* Mueller, W.

Cogne, J. *See* Zoubek, V.

Combeite $(Na_{2.33}Ca_{1.74}others_{0.12})Si_3O_9$ from Oldoinyo Lengai, Tanzania [J. B. Dawson, J. V. Smith, and I. M. Steele], 365

Condie, K. C. *See* Peucat, J. J.

Cordani, U. G. *See* Xavier, R. P.

Corfu, F. *See* Sarkar, G.

Corsi, P., author of The Age of Lamarck. *Review* by D. Jablonski, 520

Dallmeyer, R. D. *A tectonic linkage between the Rokelide orogen (Sierra Leone) and the St. Lucie metamorphic complex in the Florida subsurface*, 183

Davis, D. W., K. H. Poulsen, and S. L. Kamo. *New insights into Archean crustal development from geochronology in the Rainy Lake area, Superior Province, Canada*, 379

Dawson, J. B., J. V. Smith, and I. M. Steele. *Combeite $(Na_{2.33}Ca_{1.74}others_{0.12})Si_3O_9$ from Oldoinyo Lengai, Tanzania*, 365

de Wit, M. J. *See* Tredoux, M.
Debris in icebergs and rates of glaci-marine sedimentation: observations from Spitsbergen and a simple model [J. A. Dowdeswell and E. K. Dowdeswell], 221
Devoy, R. J., editor of Sea Surface Studies. *Review* by D. Sahagian, 774
Diagenetic alteration of the Wingate Formation: possible indications of hydrocarbon microseepage, Lisbon Valley, Utah [I. S. Merin and D. B. Segal], 719
Dietrich, W. E. *See* Reneau, S. L.
Dilek, Y. *Tectonic significance of post-accretion rifting of a Mesozoic island-arc terrane in the northern Sierra Nevada, California*, 503
Donahue, D. J. *See* Reneau, S. L.
Dowdeswell, E. K. *See* Dowdeswell, J. A.
Dowdeswell, J. A., and E. K. Dowdeswell. *Debris in icebergs and rates of glaci-marine sedimentation: observations from Spitsbergen and a simple model*, 221
Drifting Continents and Shifting Theories, edited by H. E. LeGrand and others. *Review* by E. L. Yochelson, 773
Early Cretaceous vein-related garnet granulite in Fiordland, southwest New Zealand: a case for infiltration of mantle-derived CO_2-rich fluids [J. Y. Bradshaw], 697
Eclogites with oceanic crustal and mantle signatures from the Bellsbane Kimberlite, South Africa [L. A. Taylor and C. R. Neal], 551
Errata, 128, 378
Extinction, by S. M. Stanley. *Review* by R. E. Plotnick, 649
Feakes, C. R. *See* Holland, H. D.
Fe-rich Archean tholeiites derived from melt-enriched mantle sources: evidence from the Kolar Schist Belt, south India V. Rajamani, S. B. Shirey, and G. N. Hanson], 487
Formation and diagenesis of weathering profiles [H. W. Nesbitt and G. M. Young], 127
Foster, D. A., T. M. Harrison, and C. F. Miller. *Age, inheritance, and uplift history of the Old Woman-Paiute Batholith, California, and implications for K-feldspar age spectra*, 232
Fox, P. J. *See* Batiza, R.
Frost, B. R., and T. Chacko. *The granulite uncertainty principle: limitations on thermobarometry in granulites*, 435
Frost, B. R. *See* Geist, D. J.
Frost, C. D. *See* Geist, D. J.
Fudali, R. F. *See* Melosh, H. J.
Geist, D. J., C. D. Frost, A. Kolker, and B. R. Frost. *A geochemical study of magmatism across a major terrane boundary: Sr and Nd isotopes in proterozoic granitoids of the southern Laramie Range, Wyoming*, 331
Genetics, paleontology, and evolution, by J. Levinton. *Review* by N. L. Gilinsky, 377
A geochemical study of magmatism across a major terrane boundary: Sr and Nd isotopes in proterozoic granitoids of the southern Laramie Range, Wyoming [D. J. Geist, C. D. Frost, A. Kolker, and B. R. Frost], 331
Geochronology of blueschists from west-central Baja California and the timing of uplift in subduction complexes [S. Baldwin and T. M. Harrison], 149
Gilinsky, N. L. *See* Levinton, J.
Glusker, J. P., B. K. Patterson, and M. Rossi, editors of Patterson and the Pattersons: Fifty years of the Patterson Function. *Review* by P. B. Moore, 377
The granulite uncertainty principle: limitations on thermobarometry in granulites [B. R. Frost and T. Chacko], 435
Gravity Currents: In the Environment and the Laboratory, by J. E. Simpson. *Review* by W. L. Wood, 775
Gregor, C. B., et al., editors of Chemical Cycles in the Evolution of the Earth. *Review* by E. Ito, 520
Grenville-age polyphase deformation of mid-Proterozoic basement, NW Van Horn mountains, Trans-Pecos, Texas [D. A. Bristol and S. Mosher], 25
Grindlaly, N. R. *See* Batiza, R.
Grove, J. M., editor of The Little Ice Age. *Review* by P. T. Rhodes, 519
Guthrie, P. D. *See* Rowland, F. S.
Hansel, A. K. *See* Johnson, W. H.
Hanson, G. V. *See* Rajamani, V.
Harrison, T. M. *See* Baldwin, S.
Harrison, T. M. *See* Foster, D. A.
Hart, R. J. *See* Tredoux, M.
Hervig, R. L., and S. M. Peacock. *Implications of trace element zonation in deformed quartz from the Santa Catalina mylonite zone*, 343
Hildreth, W. *See* Royal Society of Edinburgh
Historical Unrest at Large Calderas of the World, by C. A. Newhall and D. Dzursin. *Review* by W. I. Rose, 650
Holland, H. S., and C. R. Feakes. *Paleosols and their relevance to Precambrian atmospheric composition: a discussion 1*, 761
Holness, M. B., and F. M. Richter. *Possible effects of spreading rate on MORB isotopic and rare earth composition arising from melting of a heterogeneous source*, 247
Horikawa, K., editor of Nearshore Dynamics and Coastal Processes—Theory, Measure-

ment, and Predictiave Models. *Review* by B. M. Lesht, 650

A horizontal buckle model as a dynamic mechanism for back-arc spreading of the Japan Sea [S. Yanai], 569

Housh, T., S. A. Bowring, and M. Villeneuve. *Lead isotopic study of early proterozoic Wopmay orogen, NW Canada: role of continental crust in arc magmatism*, 735

An illustration of a sea level control model from a subsiding coastal fan system: Pleistocene Ogasayama formation, central Japan [T. Muto and P. Blum], 451

Impact Cratering, A Geologic Process, by H. J. Melosh. *Review* by R. F. Fudali, 773

Implications of trace element zonation in deformed quartz from the Santa Catalina mylonite zone [R. L. Hervig and S. M. Peacock], 343

Introduction to the Structure of the Earth, by E. W. Spencer. *Review* by L. B. Platt, 775

Ito, E. *See* Gregor, C. B.

Iyer, S. S. *See* Xavier, R. P.

Jablonski, D. *See* Corsi, P.

Johnson, W. H., and A. K. Hansel. *Age, stratigraphic position, and significance of the Lemont drift, northwestern Illinois*, 301

Jull, A. J. T. *See* Reneau, S. L.

Kamo, S. L. *See* Davis, D. W.

Katz, M. B. *Sri Lankan-Indian Eastern Ghats-East Antarctica and the Australian Albany Fraser mobile belt: cross geometry, age relationships, and tectonics in Precambrian Gondwanaland*, 646

Kidwell, S. *Stratigraphic condensation of marine transgressive records: origin of major shell deposits in the Miocene of Maryland*, 1

Klewin, K. W. *Polybaric fractionation in an evolving continental rift: evidence from the Keweenawan mid-continental rift*, 65

Kochel, R. C. *See* Miller, J. R.

Kolker, A. *See* Geist, D. J.

Kozhoukharov, D. *See* Zoubek, V.

Krautner, H. G. *See* Zoubek, V.

Lead isotopic study of early proterozoic Wopmay orogen, NW Canada: role of continental crust in arc magmatism [T. Housh, S. A. Bowring, and M. Villeneuve], 735

LeGrand, H. E., editor of Drifting Continents and Shifting Theories. *Review* by E. L. Yochelson, 775

Lesht, B. K. *See* Horikawa, K.

Levinton, J., author of Genetics, Paleontology, and Evolution. *Review* by N. L. Gilinsky, 377

Lindsay, N. M. *See* Tredoux, M.

Lisle, R. J. *The statistical analysis of ortogonal orientation data*, 360

The Little Ice Age, edited by J. M. Grove. *Review* by P. T. Rhodes, 519

Low density carbonic fluids in the Archean granulite facies terrain of the Jequié complex, Bahia, Brazil [R. P. Xavier, J. S. F. Barbosa, S. S. Iyer, A. Choudhuri, J. V. Valarelli, U. G. Cordani], 351

Maekawa, H. *Two modes of mixing of Biei ophiolitic mélange, Kamuikotan blueschist*, 93

Magmatic Processes: Physicochemical Principles, edited by B. O. Mysen. *Review* by A. T. Anderson, 245

Magnetic polarity stratigraphy and mammalian fauna of the late Pliocene (early Matuyama) section at Batesford (Victoria) Australia [M. J. Whitelaw], 624

Maliva, R. G., and R. Siever. *Nodular chert formation in carbonate rocks*, 421

Manuscript style guidelines for authors, 127

Mattioli, G. S., M. B. Baker, M. J. Ritter, and E. M. Stolper. *Upper mantle oxygen fugacity and its relationship to metasomatism*, 521

Maybin, A. H. III. *See* Mittwede, S. K.

McCarthy, T. S. *See* Palmer, J.

McLellan, E. L. *Sequential formation of metamorphic and anatectic migmatites related to thermal evolution, eastern Scotland*, 165
